

NVPC Examen Kinderplastische chirurgie 28 mei 2026

Studieboek: Neligan Volume 3: Craniofacial, Head & Neck, **vijfde editie**

SCHISIS

18 Embryology of the Craniofacial Complex (p. 442-450)

Cleft lip

19.1 Unilateral cleft lip: introduction (p. 451 t/m 455)

19.2 Rotation advancement cheiloplasty (p. 456 t/m 477 – rotation for incomplete clefts)

19.4 Anatomic subunit approximation approach to unilateral cleft lip repair (p. 498 t/m 513 – case examples)

20. Repair of bilateral cleft lip (p. 519 t/m 525 – technical modifications for bilateral variations)

Cleft palate

21.1 Cleft palate: introduction (p. 538 t/m 541)

21.2 Straight line repair with IVVP (p. 542 t/m 548)

21.3 Double opposing Z-plasty (p. 549 t/m 556)

21.5 The buccal fat pad flap (p. 557 t/m 574)

21.9 Velopharyngeal dysfunction (p. 618 t/m 635)

21.10 Secondary deformities of the cleft lip, nose and palate (p. 636 t/m 660)

CRANIOFACIAAL

24 Craniofacial clefts (p. 747 t/m 774)

25.2 Nonsyndromic craniosynostosis (p. 808 t/m 818, tot 'peri- and postoperative care')

25.3 Multisutural syndromic craniosynostosis (p. 827 t/m 842, tot 'orthognathic surgery in late adolescence')

26 Craniofacial microsomia (p. 859 t/m 865, tot 'classification systems')

27 Idiopathic progressive hemifacial atrophy (p. 887 t/m 895, tot 'medical therapy and surgical treatment')

28 Robin Sequence (p. 902 t/m 909, tot 'surgical airway management')

29 Treacher Collins (p. 923 t/m 934)

HEMANGIOMEN EN VASCULAIRE MALFORMATIES/TUMOREN

31 Vascular anomalies (p. 952 t/m 973)

33 Pediatric tumors (p. 988 t/m 1000)

RICHTLIJNEN

- Richtlijn congenitale melanocyttaire naevi (p. 4 t/m 32)
- Richtlijn craniosynostose (p. 27 t/m 70)
- Richtlijn afstaande oren
