Studiestof Examen Reconstructieve Chirurgie 2
najaar 2026

RICHTLIJNEN:

Via Richtlijnendatabase.nl

- **Borstreconstructie**:
  De aanbevelingen van alle hoofdstukken zijn studiestof, overwegingen dienen als verdieping en worden NIET geëxamineerd.
- **Perifere aangezichtsverlamming (idiopathische vorm):**
  De aanbevelingen van de volgende hoofdstukken zijn studiestof, overwegingen dienen als verdieping en worden NIET geëxamineerd:
  - Classificatie en evaluatie perifere aangezichtsverlamming
  - Behandeling van oogklachten bij perifere aangezichtsverlamming
  - Reconstructieve chirurgie van de mondhoek na een perifere aangezichtsverlamming
  - Oefentherapie na een perifere aangezichtsverlamming

NELLIGAN 5E DRUK:

Volume 3:

- H3 Aesthetic nasal reconstruction 52-109 (57p)
- H10 Local flaps for facial coverage 229-255 (26p)
- H11 Lip reconstruction 256-274 (18p)
- H12 Oral cavity, tongue and mandibular reconstruction 275-301 (26p)
- H15 Facial paralysis 359-389 (30p)

Volume 4:

- H5 Reconstructive surgery: lower extremity coverage 154-179 (25p)
- H8 Foot reconstruction 228-264 (36p)
- H11 Reconstruction of the chest 327-353 (26p)
- H12 Reconstruction of the posterior trunk, tot special clinical scenarios 354-379 (25p)
- H14.1 Gender confirmation surgery: diagnosis and management 407-413 (6p)
- H14.2 Gender confirmation surgery, male to female: vaginoplasty 414-420 (7p)
- H14.3 Gender affirmation surgery, female to male: phalloplasty; and correction of male genital defects 421-438 (17p)
- H14.4 Breast, chest wall, and facial considerations in gender affirmation 439-451 (12p)
- H15 Reconstruction of acquired vaginal defects 452-461 (9p)
- H16 Pressure sores 462-488 (26p)
- H17 Perineal reconstructions 489-500 (11p)

Volume 5:

- H11 Breast implant-associated anaplastic large cell lymphoma (BIA-ALCL): diagnosis and management 160-173 (13p)
- H17 Preoperative evaluation and planning for breast reconstruction following mastectomy 222-233 (11p)
- H20 One- and two-stage prepectoral reconstruction with prosthetic devices 247-264 (17p)
- H27 Introduction to autologous breast reconstruction with abdominal free flaps 336-339 (3p)
- H29 Breast reconstruction with the latissimus dorsi flap 355-370 (15p)
- H30 Autologous breast reconstruction with the DIEP flap 371-395 (24p)
- H32 Autologous breast reconstruction with the superficial inferior epigastric artery (SIEA) flap 413-419 (6p)
- H33 Introduction to autologous reconstruction with alternative free flaps 420-423 (3p)
- H34 Gluteal free flaps for breast reconstruction 424-432 (8p)
- H35 Autologous breast reconstruction with medial thigh flaps 433-449 (16p)
- H36 Autologous breast reconstruction with the profunda artery perforator (PAP) flap 450-460 (10p)
- H44 Introduction to oncoplastic breast surgery 526-532 (6p)
- H45 Partial breast reconstruction using reduction and mastopexy techniques 533-546 (13p)
- H46 Oncoplastic breast reconstruction: local flap techniques 547-555 (8p)
- H48 Breast reconstruction and radiotherapy: indications, techniques, and outcomes 567-580 (13p)
- H50 Total breast reconstruction by external vacuum expansion (EVE) and autologous fat transfer (AFT) 590-602 (12p)
